7 reasons to make the switch to Sage Intacct

Migrating from Microsoft Dynamics GP? Here's why you should consider Sage Intacct over Business Central.

MicrosoftDynamics GreatPlains (GP)has been an effectivesolutionfora wide range of organizations for decades. But as Microsoft plans to sunset support for GP over the next few years, it's time to consider your options.

While almost all (95%) of financial executives surveyed by Sage Intacct said GP has been very or somewhat effective, more than three-quarters of them (78%) also expressed that it's extremely or very urgent to replace it.

The writing is on the wall: it's time to move on. And while Microsoft provides many world-class solutions, there are many good reasons that Sage Intacct may be your perfect fit.
